

# Introducing Workforce Management Clock™ with Clock Lockout

Restrict employees from clocking in\*

## Reducing labor costs one punch at a time

- ✓ **Clock lockout** reduces unscheduled labor costs
  - Prevents punches from early and unscheduled arrivals
  - Informs employees when they are scheduled to start
- ✓ **PunchLogic™** prevents punch errors
  - Eliminates duplicate punches and drastically reduces admin edits
  - Improves accuracy of auditable timekeeping data for compliance
- ✓ **Break tracking** gives employees dedicated break buttons
  - Removes employee confusion when punching at the clock
  - Allows breaks to be paid based upon hours worked

Workforce Management Clock — improving the way employers track employee hours while reducing labor costs, one punch at a time. Available via modern web browsers on most devices.

\*Requires Advanced Scheduling
